#### The Proposal

The FAA is considering an amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish Class E airspace area at Sharon, PA. An RNAV Approach, Helicopter RNAV 262, has been developed for Shenango-UMPC Horizon Hospital Heliport, Sharon, PA. Controlled airspace extending upward from 700 feet AGL is needed to accommodate the SIAP. Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface are published in Paragraph 6005 of FAA Order 7400.9H, dated September 1, 2000, and effective September 16, 2000, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that would only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**Proposed Approval and Promulgation of Implementation Plans; Texas; Lawn Service Equipment Operating Restrictions; and Requirements for Motor Vehicle Idling for the Houston/Galveston (HG) Ozone Nonattainment Area**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA proposes to approve revisions to the Texas State Implementation Plan. This proposal covers two separate actions. We are proposing approval of: A rule that would implement an operating-use restriction program requiring that the handheld and non-handheld spark-ignition engines, rated at 25 hp and below, be restricted from use by commercial operators between the hours of 6:00 a.m. and noon, April 1 through October 31, in the counties Brazoria, Fort Bend, Galveston, Harris, and Montgomery; and, a rule to implement idling limits for gasoline and diesel-powered engines in heavy-duty motor

vehicles in the HG area counties of Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery, and Waller. These new rules will contribute to attainment of the National Ambient Air Quality Standard (NAAQS) for ozone standard in the HG area. The EPA is proposing approval of these revisions to the Texas SIP to regulate emissions of nitrogen oxides (NO<sub>x</sub>) and volatile organic compounds (VOC) in accordance with the requirements of the Federal Clean Air Act (the Act).

**DATES:** Written comments must be received on or before July 11, 2001.

**ADDRESSES:** Written comments should be addressed to Mr. Thomas H. Diggs, Chief, Air Planning Section (6PD–L), at the EPA Region 6 Office listed below. Copies of documents relevant to this action are available for public inspection during normal business hours at the following locations. Anyone wanting to examine these documents should make an appointment with the appropriate office at least two working days in advance.

**SUPPLEMENTARY INFORMATION:**

Throughout this document “we,” “us,” and “our” refers to EPA.

This document concerns Control of Air Pollution of NO<sub>x</sub> and VOCs for on-road and non-road equipment and vehicle sources in the HG area and the control measures for attainment demonstration purposes. For further information, please see the Technical Support Document (TSD) prepared for this action.

**What Action Are We Taking Today?**

On December 20, 2000, the Governor of Texas submitted to EPA these two rule revisions (an operating-use restriction program for handheld and non-handheld spark-ignition engines, rated at 25 hp and below, used by commercial operators; and, idling limits for gasoline and diesel-powered engines in heavy-duty motor vehicles) to the 30 TAC, Chapter 114, “Control of Air Pollution From Motor Vehicles,” as a revision to the SIP.

These new rules will contribute to attainment of the ozone standard in the HG area. The EPA is proposing to
